Attachments: Copy of OSDHServices_Essential_Mandated_Imperative_2.20.18.xlsx

My suggestions for the first file are attached.

Thanks

Hank

My suggestions are tracked in the attached. I wonder about changing the names of the "chief areas" before the State Board of Health has approved the org chart changes.

Thanks

Hank

Thank you Adrienne for your hard work on this. One comment and then question:

On the first attachment: Under Newborn Metabolic Screening: please add that the CHD also do these.

Although the majority are done through the hospital setting, the chd do those that are home delivery or are insufficient specimen, repeat specimens and f/u

On the second attachment: I am having problems keeping straight what my new title is: but on this attachment you have all the programs that are Chief Family and Child Health Director under my title. With that said: those mandates are required of that program area but maybe carried out by the chd. So not sure how you want to address that.

Subject: Document

Here is an updated document that we believe covers all services offered at a high-level. Please verify that we are not missing any services in your areas or if you disagree with how something is captured. Also, we believe we have identified all agency mandates that are also attached for comparison purposes. Please let me know if you would like to have anything edited or added. Thank you!
